

KONYA J PROJECT MEETING

May 24, 2016, KONYA-TURKEY

We had organized a J Project Meeting in Konya to notice to the treatment of primary immunodeficiency diseases among the medical students and physicians.

Konya J Project Meeting was held on May 24, 2016 at Necmettin Erbakan University Medical School in Turkey. The meeting was primarily focused on the IVIG treatment of PIDs, also to discuss the importance of early treatment of the patients with PID. More than 80 medical students and pediatricians attended the meeting. Prof Çalışkaner gave a lecture on the characteristics of IVIG and Prof. Reisli gave a lecture on the treatment modalities of immunoglobulins, and also discussed the importance of the early treatment of PID altogether.

We would like to thank all participants for their contribution, also Eczacıbaşı-Baxalta for their financial support.

Prof. Ismail Reisli, MD

Prof. Ahmet Zafer Çalışkaner, MD
